

Starting a new activity in the Corpus Christi Police Officers Association, all retired officers are encouraged to participate. This activity will be limited to only retired officers. The program is being developed and still in progress. I am writing this as a notification of the start of the program and to provide my contact information. Anyone interested to being involved please let me know and send me your contact information to be used only for CCPOA Retired Officers. The information will not be released to anyone outside of the association.

There is presently an item for consideration, a labor pool of persons interested in volunteer or possible contracted opens at the police department. Discussions are still in progress.

Watch the POA Website for additions and new developments for this program.

Thank You,

Doug Rush
